

Consent Form: Eating insects and other invertebrates

Your child's forthcoming trip to Paignton Zoo involves a session looking at the possibility of insects as a sustainable food source.

Some of the students will take part in a challenge to see if they are prepared to eat insects and other invertebrates. The insects will be dead and freeze dried. They have been sourced from a reputable supplier and are produced, packaged and sold for human consumption **in an environment that does contain nuts.**

If your child has a nut / mollusc / shellfish / dust mite / insect sting allergy or severe asthma, they should NOT eat insects.

Please give permission for your child to take part in this activity by ticking the boxes below, providing the details requested and signing at the bottom.

My child does **NOT** have any of the allergies listed above

I **GIVE** permission for my child to eat insects

Child name (please print) _____

School (please print) _____
