

## ADVENTUROUS PLAY

In AquaZoo, entertainment and (water) fun are paramount! Discover for example the water playground **Playing by the Stream**.

Also a lot of fun is hiking along the adventure trails past the animals. Here you can walk across ditches on logs,

cross the water on a raft, or jump from one rock to another. Will you keep your feet dry? The park also features a free rowing pond and several playgrounds with challenging air trampolines. Each playground has an adjacent terrace where you can enjoy a snack and a drink.

## PARTIES AND DAYS OUT

For both large and small groups, AquaZoo offers several adventurous arrangements. From childrens' parties to family gatherings, business trips, school trips, and many more.

## AQUAZOO, A NICE DAY OUT FOR EVERYONE

AquaZoo is accessible for everyone, also for the disabled. The park is accessible for wheelchair users, there are adjusted toilets and our employees are always willing to help you. More information can be found at [aquazoo.nl/en/visitor-info/practical-information](http://aquazoo.nl/en/visitor-info/practical-information)

AquaZoo can also be reached easily by public transportation!

This paper is FSC-certified.

## AQUAZOO LEEUWARDEN, MORE THAN A DAY OUT

Education and species conservation are important tasks for AquaZoo. The park participates in several management programs. These ensure the conservation of vulnerable species in the wild and a healthy population in the zoos. Various animal and nature conservation projects are supported through Stichting Wildlife.

**Together, we take care of nature!**

## LEARN A LOT ABOUT THE ANIMALS

There's something new to learn every day. That's why AquaZoo hosts various **educational presentations** every day. The polar bear inspection is unique in the Netherlands. Here, you'll witness the medical checks performed by the zookeepers up close. Fun and educational at the same time! View the daily program at [aquazoo.nl/en/park/zoo-program](http://aquazoo.nl/en/park/zoo-program)

## DIFFERENT AREAS

Come and discover all the animals at AquaZoo. In the **Churchill area**, you'll see beavers, raccoons, and polar bears like never before! In the **Wadden Sea** area, you'll learn all about this unique UNESCO World Heritage site. And in the **Amur region**, you can admire red pandas, tigers, and Père David's deer, which is extinct in the wild.

## INDOORS AND OUTDOORS

There's also plenty to discover indoors in AquaZoo. You can admire all sorts of unique fish and frogs, for example. There are even seahorses swimming around. Other animals, such as sloths and armadillos, are also hiding inside. And how about the gigantic Nile crocodiles... Do you dare to visit them?
